

JOB DESCRIPTION

Position Title: Director, Biosimilars Council
Department: Policy & Strategic Alliances
Report To: Executive Director, Biosimilars Council
FLSA: Exempt
Last Revision Date: December 2, 2020

Job Summary: The Director, Biosimilars at the Association for Accessible Medicines' Biosimilars Council (AAM or the Council) is responsible for working with leadership to identify issues impacting Council members' interests and develop and implement advocacy strategies and tactics that effectively support those interests. The role includes identifying and managing research projects as well as developing written testimony, public comments, policy papers and other materials in support of the Council's policy positions with various constituencies including lawmakers, stakeholders, regulators and others. The role also works closely with AAM's communications team to create and distribute content consistent with the strategic goals and mission of the Council.

Essential Duties and Responsibilities:

- Collaborate and assist with the development of the Council's policy positions.
- Serve as a project manager for policy research and data-driven projects. This includes but is not limited to gathering information on new guidance, trends and anticipated issues, identifying sources of research and policy analysis, contributing to strategy development and execution, and supporting the production of research reports, brief policy papers and other educational materials for internal and external audiences.
- Develop written testimony, public comments, policy papers, correspondence and other materials to support both state and federal advocacy
- Monitor and track trends and developments in the biosimilar industry and provide proactive policy analysis and consultation to AAM staff and member companies regarding emerging threats and opportunities.
- Identify research priorities and appropriate methodologies.

Your Generics and Biosimilars Industry

- Represent the Council in assigned external meetings and forums, as appropriate, as a spokesperson and subject matter expert; document proceedings and share with AAM's Policy & Strategic Alliances team.
- Foster development and strategic management of key relationships with Administration policymakers.
- Support work of the Council's Education Committee and monthly committee meetings.
- Attend and provide subject matter expertise in alliance development and stakeholder meetings related to Council work and policy priorities; assist with follow-up on biosimilar-related deliverables.
- Collaborate with AAM's Communications team to create and distribute content.
- Perform other duties as assigned consistent with the goals of the Council.

Qualifications: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Strong working knowledge of health policy and landscape
- Excellent written and oral communication skills, including the ability to simplify complex issues through understandable and persuasive presentations
- Exceptional interpersonal skills, a focused listener
- Exceptional integrity, diplomacy, a positive attitude and ability to establish trust
- Exhibits a high degree of personal initiative
- Exceptional organizational and project management skills for timely implementation of projects involving multiple functions and external resources
- Ability to prioritize and manage multiple initiatives and simultaneous requirements of internal and external constituents with flexibility and a steady temperament
- Ability to work in a collaborative environment and accomplish tasks with self-direction through exemplary customer service
- Ability to work creatively and with flexibility in a fast-paced environment while maintaining high work standards.
- Excellent computer skills, including experience using Microsoft Word, Excel and PowerPoint
