

US Pharmacopeia: Empowering a Healthy Tomorrow

Robert Femia, PhD

Senior Vice President, Science – Chemical Medicines

[USP Workshop Presentation](#)

Mission

To improve global health through public standards and related programs that help ensure the quality, safety and benefit of medicines and foods

- ▶ Beyond standard-setting
- ▶ Making a global impact on public health and patient safety

We exist to ...

- ▶ Protect patient safety
- ▶ Advance public health
- ▶ Foster competition for more affordable quality medicines

We are an ‘organization of organizations’

- ▶ Governed by the USP Convention
- ▶ 450 academic institutions; healthcare practitioner, patient and industry groups; and governmental orgs

We are science-based

- ▶ Not-for-profit and independent

We are powered by ...

- ▶ 900+ experts from science and health who set USP quality standards
- ▶ 100 FDA staff participate in the process

USP is committed to

- Meet our “Up to Date” ambition by eliminating the backlog of standards requiring modernization
- Continuously modernize and strengthen USP-NF as well as to establish a trajectory in new monograph development and modernization
- Tailoring programs to address stakeholder priorities
- Fostering next generation of science and public health experts to volunteer with USP
- Measuring public health impact of USP’s quality work
- Advocating for quality to advance public health and patient safety

For quality standards to be impactful, they must be...
