Who Owns Biosimilar Education? Building a Lifelong Learning Framework for Healthcare Practitioners

Sarah Ikenberry, M.A., Associate Director for Stakeholder Engagement and Education

Overview of Medscape Education Series

Navigating the Maze: Expert Guidance on Understanding and Integrating Biosimilars in Practice

- Educate HCPs (160,316 so far)
- 10 courses CME (.25-1.25)
- 3 coming soon

MD REACH

56,801 MDs

engaged, including:

5,091	Hem/Onc Specialists
3,619	Neurologists
2,321	Rheumatologists
627	Nephrologists
2,291	Obstetricians/Gynecologists
28,640	Primary Care Physicians
2	Pediatricians
1,397	Gastroenterologists
521	Dermatologists
12,292	Other Physicians

OTHER HCP REACH

100,973 Other HCPs

engaged, including:

9,848	Nurse Practitioners
3,567	Physician Assistants
61,601	Other Nurses
20,984	Pharmacists
4,973	Other HCPs

Biosimilars Education for Health Care Providers

The FDA, in collaboration with Medscape, provides educational activities designed to equip healthcare professionals with the knowledge and confidence to discuss biosimilars with their patients.

Activities focus on the following clinical themes:

- Foundations & Regulation
- Care Planning
- Navigating Conversations
- Disease-Specific Applications
- General Resources

Access the courses:
(Medscape login required)

Now Featuring Courses on Topics:

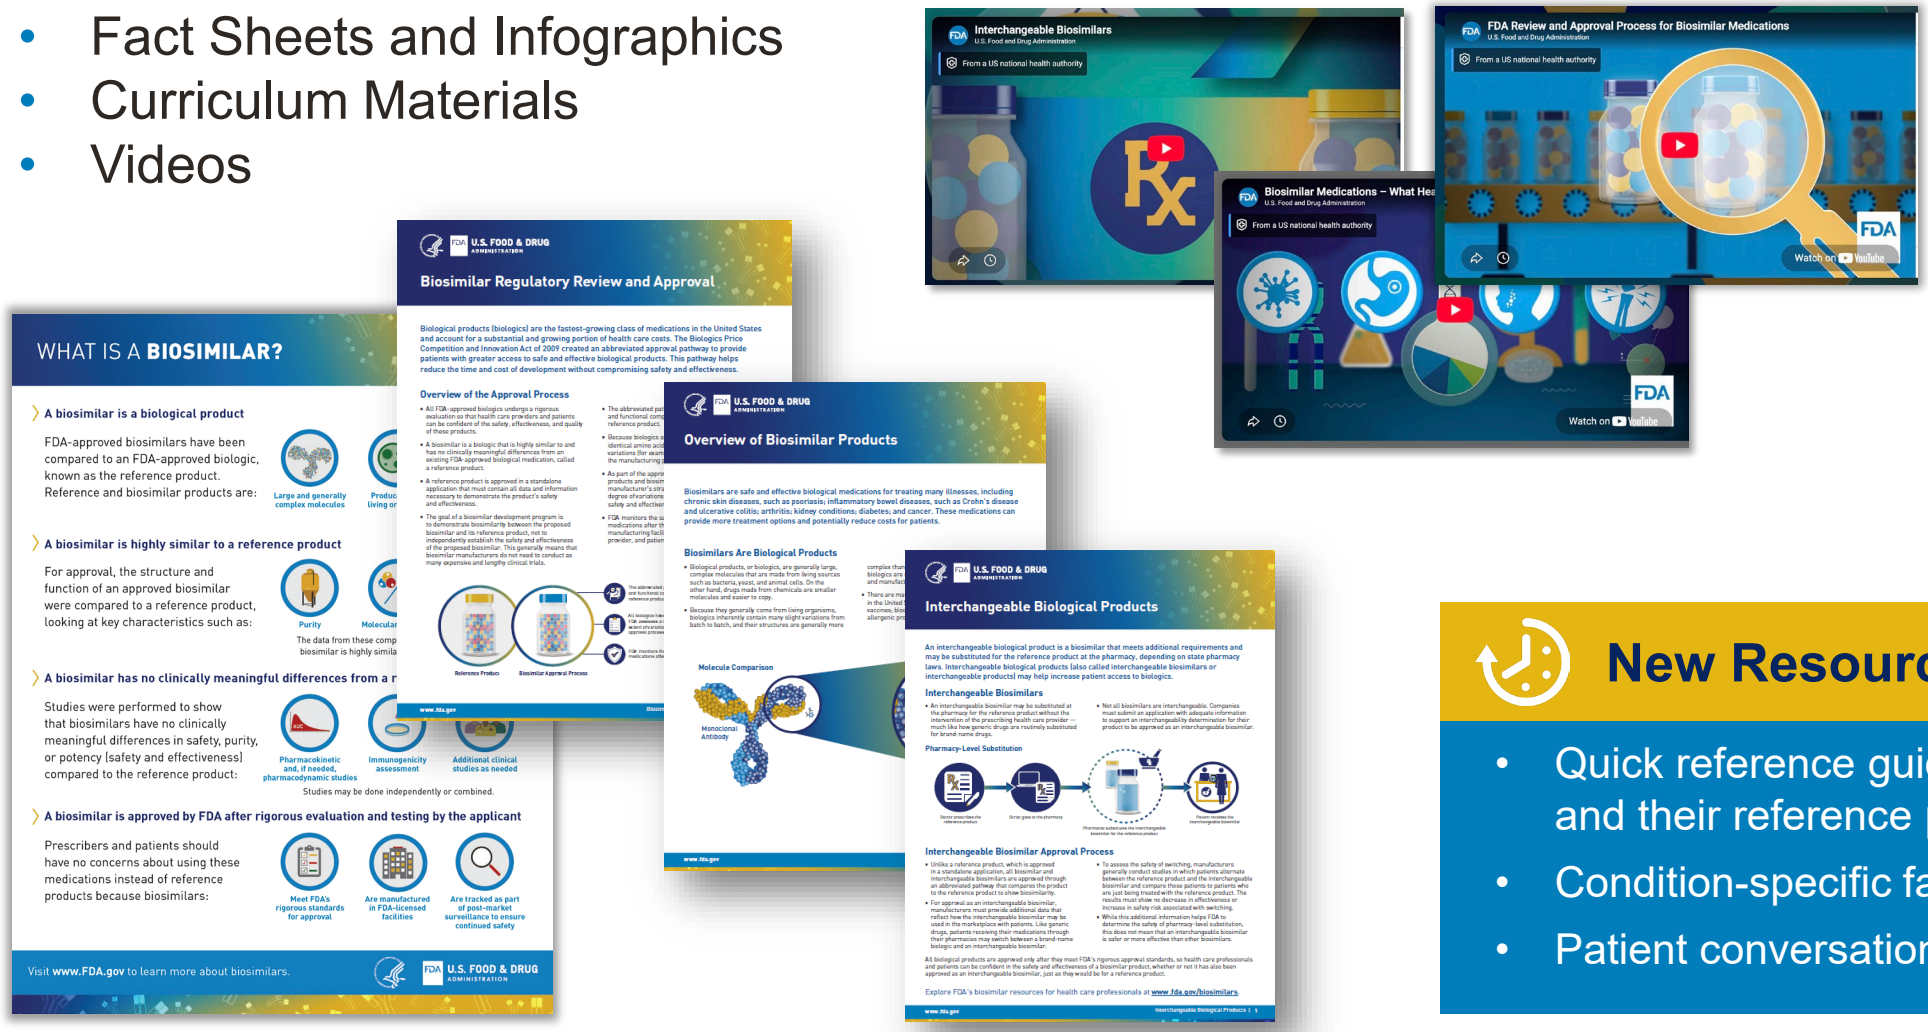

- Overcoming Reluctance and Enhancing Biosimilar Adoption
- Strategies for Educating Patients
- Integrating Biosimilars Into Clinical Practice
- Clinical-Specific Content (Gastroenterology, Ophthalmology, Hematology, Rheumatology)

New Courses Coming Soon:

- Oncology
- Dermatology (Psoriasis)
- FDA's Biosimilar Approval Framework

Additional Resources for Health Care Providers

- Fact Sheets and Infographics
- Curriculum Materials
- Videos

Access the Resources:

New Resources Coming Soon!

- Quick reference guides to biosimilars and their reference products
- Condition-specific fact sheets
- Patient conversation guides
